

# ***This is it... This is the business you've been looking for!***

It can bring you wealth. It can bring you radiant health. It can give you a lifestyle of freedom you've only dreamed of.

I say it "*can*" because most of your success is up to you. But you already know that. You already have the necessary desire for optimal health and greater wealth.

***All you need now is a plan that really works.***

Well, you've just found it. It's the Wellness and Wealth Program you now hold in your hands.

The website ehow.com has said that health and wellness is expected to be a ***trillion***-dollar per year industry. They have also listed 5 things that mark an excellent network marketing opportunity:<sup>1</sup>

- Not a large organization
- A ground-floor opportunity in its early phase
- Extremely high quality, high-demand, consumable products
- A compensation plan that rewards the many not the few
- An easy to duplicate plan that uses modern marketing technology

That's *us*. That's ElectricLife to a tee. We're part of a trillion dollar industry. But our exclusive formulations are far ahead of most other health supplements on the market today (see our products brochure). They are electrically compatible with your body and will ***transform your health.***<sup>2</sup>

And our three Wellness and Wealth Plans are designed to ***transform your wealth.***

If you have the excitement, ambition and commitment you need to transform your health and wealth, we have a plan that will take you there. Pick the Membership type that's right for you and go for it!

Wishing you Wellness and Wealth,

James Van Patten, President, ElectricLife
